When creating new database, it is sometimes useful to copy configuration from existing database.
Note, only works for SIB2 files.
From the start screen, press New database
×
Click on Import from existing database button
×
Click the <i>browse</i> button or on empty path area to select database.
×
New database name and path will be filled with suggested values, customize by typing or pressing the browse
button.
×
Press_next_ button and select settings to import.
×
Press <i>next</i> again to review the import settings.
×

 $Press\ \textit{Finish}\ to\ import\ data,\ window\ will\ close\ after\ the\ import\ and\ new\ database\ will\ be\ added\ to\ the\ start$ screen.
